

PARKLAND NOT CARPARK!

The Outrigger foreshore developers have claimed that they are focused on delivering "...a **high-quality development to replace an expanse of bitumen...**"

But this, we think, misses the point. In SOF's opinion very few locals would believe the carpark in this prime public foreshore location was designed to be a permanent fixture.

Even according to Vision Airlie it was never planned to be permanent.

Vision Airlie states: "**Central to the development of the foreshore will be the removal of the existing carpark.**"

We believe that Whitsunday residents expected the area's future to be as public parkland not public carpark.

And that would be a big improvement on a high-rise too!

For help with your written objection to this development, see us at:
