

DOES SOF HAVE A VESTED INTEREST?

In recent weeks the Save Our Foreshore group has been accused of just about everything; irrelevance, incompetence, lying and even having some sort of vested interest.

Well let's put the record straight. We do have a vested interest!

We want to keep public foreshore in the Whitsundays for public use.

With so little open space left on the waterfront and more disappearing all the time, we want to keep some of it for families to use without having to fork out for expensive meals or drinks.

We want to resist buildings 15 metres high when the intention of Council's own Strategic Plan is 9 metre heights.

We want to prevent Airlie ending up like Noosa or the Gold Coast.

We want our Council to listen to the voice of the people they represent.

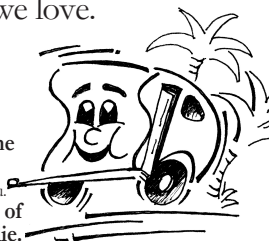

Other than that we're just an ordinary group of Whitsunday community members giving up a little bit of our time for the town we love.

To save our foreshore for our families and our future we must act NOW.

For more information, visit our pink caravan at the carpark or email us at

saveourforeshore@whitsunday.com.au.
