

THIS WILL BECOME A BUILDING SITE FOR TEN YEARS!

Here is an extract from the Shute Harbour Marina Developer's ad in the Whitsunday Times, Nov 8 2007. Already, an area almost the size of the town has been a building site for Port of Airlie for over a year and will be for around another five. If the Shute Harbour development goes ahead the community and visitors will have to endure yet another massive eyesore for at least another ten years! And all this for a multi-storey development with marina, on public foreshore, that the community simply doesn't need! If you object to this please sign our petition. For more information visit www.saveourforeshore.com.au
